

Elron Ventures - Investor Presentation

October 2025

Disclaimer

This presentation is for information purposes only. By this presentation, Elron does not intend to solicit offers to purchase its securities and the presentation does not constitute an invitation to receive such offers, and nothing said therein constitutes a “public offering”, as defined in the Israel Securities Law, 5728-1968. The presentation was prepared for the purpose of a general overview of Elron, and as such, the information contained within it is only concise and does not fully encompass all the data about the company and its activities.

Elron may make edits and/or changes and or update in the features or content presented herein at any time. Elron shall not be liable for any loss, claim, liability or damage of any kind resulting from the investor's reliance on or reference to any detail, fact or opinion presented herein.

The presentation is not intended to provide a comprehensive description of Elron's activities, and Elron urges investors to consider the information presented herein in conjunction with its public filings including its annual and other periodic reports.

Nothing in this presentation should be considered "investment advice", as defined in the Israel Regulation of Investment Advice, Investment Marketing and Portfolio Management Law, 5755-1995.

This presentation is accompanied by presentations of several companies held by Elron, either directly or indirectly, which are at various stages of development (the “Portfolio Companies”). It is hereby clarified that:

(a) The mere inclusion of a company in the presentation and/or its presentation at the conference does not constitute a recommendation, advice, opinion, solicitation, or offer to engage in any transaction in connection with that company and/or Elron, and does not indicate its relative importance to Elron and/or the understanding of its business; (b) The presentations include information from the Portfolio Companies that was prepared by them, and Elron has not conducted an independent review or

comprehensive verification of its accuracy, completeness, or timeliness; (c) Unless otherwise stated, the data relating to the Portfolio Companies may be presented, classified, or prepared in a manner different from the way data is presented in Elron's public reports.

Certain statements made over the course of this presentation may be forward-looking in nature, as defined in Section 32A of the Israel Securities Law, 5728-1968. Such forward-looking statements involve known and unknown risks, uncertainties, forecasts, assessments, estimates or other information, which relates to a future event or matter whose occurrence is not certain and which is not within the sole control of Elron, and other factors which may cause the actual results, performance and achievements of Elron to be materially different from any future results, performance and achievements implied by such forward-looking statements. These forward looking statements are not proved facts and are based on Elron's subjective assessments which rely on analysis of general information, public publications, researches and reviews, which do not include any liability as to the accurateness or completeness of the information contained there and their accurateness hasn't been examined by Elron. The realization of these forward looking statements will be affected by factors that cannot be assessed in advance and which are not within the control of Elron. Elron assumes no obligation to update the information in this presentation and disclaims any obligation to publicly update or revise any such forward-looking statements to reflect any change in its expectations or in events, conditions, or circumstances on which any such statements may be based, or that may affect the likelihood that actual results will differ from those set forth in the forward-looking statements.

These estimates, in whole or in part, may not materialize, or may materialize in a manner materially different than expected. The principal factors that may affect this are: failure to meet goals, modifications in work plan, goals and/or strategy, unexpected needs of the group companies for additional financing, investment

in new companies, any other unexpected expenses, information collected by the group companies in connection with the state of the market, market potential and products, the state of competition and the identity of competitors and their methods of operation, as well as long-term plans and forecasts, errors in data and estimates collected, changes in the state of the market, problems concerning personnel, technological and engineering difficulties, deviation from development schedules, unexpected regulatory problems or regulatory changes, the worsening of competition, including the development of competing technologies and products, and the like.

Iron Swords War: In October 2023, the "Iron Swords" war (hereinafter: "the war") broke out in the State of Israel. The Company continues to monitor and examine the effects of developments and changes related to the “Swords of Iron” War on its operations as a whole, and the focal points of potential risk in particular. For further details, see section 7.5 in Part I of the Annual Report of 2024 and Note 2 to the Consolidated Financial Statements as of June 30 ,2025.

All amounts are fully attributed to Elron and RDC unless specified otherwise.

Elron Ventures Key Milestones

Proven track record of success and shared value since September 2024

Investments

\$12M invested in new and existing portfolio companies¹

New investment - CyberRidge

Exits

4 exits valued over \$0.5B; ~\$64M exit proceeds²

Dividends

~\$30M distributed

Buyback

Share repurchase program of up to \$1M until January 30, 2026³

New strategy

Expanding investment stages and entering Deep Tech to maximize value through quicker exits

Dividend Policy

The policy: to distribute minimum **25%** of exit proceeds to our shareholders⁴

Sep 2024 – Oct 2025

(1) Including amounts invested by RDC.

(2) Including exits of CyberFuture. Including Axonius shares in the amount of approximately 15 million dollars, based on the valuation determined in Axonius's most recent investment round. The economic value of the shares received may have changed since that investment round. The accounting value of our share of the consideration will be determined according to a valuation conducted with the assistance of an external appraiser.

(3) For further details see Immediate report -ref number 2025-01-059229.

(4) For further details see section 5.3 in Part I of the Annual Report of 2024.

Strategic Growth

Expanding investment stages and entering Deep Tech to maximize value through quicker exits

Early Growth Investments

Reducing risk and expediting time to exit

Deep Tech & Defense Tech In Addition to Cybersecurity & SaaS

Large markets in which we have expertise

Leveraging on collaboration with Rafael

Primary & Secondary Investments

Investing directly in companies

Acquisition from early stage investors

Global Reach

Utilize our global reach in the US & EU

Maximizing Israel's innovation leadership

Elron Portfolio Snapshot

Companies crossing all stages as a growth catalyst for the coming years

Legend

-  Cybersecurity
-  Medtech
-  SaaS
-  Deep Tech / Defense Tech
-  Other

Technology Domains

We are investing where our expertise meets market urgency.

DEEP TECH:

Deep tech breakthroughs unlock massive, untapped markets with high demand and minimal competition, creating exceptional business opportunities.

DEFENSE TECH:

Defense tech is driven by the urgent need for smarter, faster, and more autonomous solutions on and beyond the battlefield.

CYBERSECURITY:

Cyber is entering a new era, as GenAI enables real-time, adaptive attacks and drives soaring demand for advanced defense solutions.

Elron and Rafael's Partnership

Boosting Technological, Product and Market Superiority

Mobilizing the right mechanisms and teams at Rafael to work with deep tech & cybersecurity ventures

Technology Validation & Due Diligence

We assemble ad-hoc teams for technological assessment of investment opportunities

E.g. AI, quantum, blockchain, computer vision, system engineering, advanced manufacturing

Spinoffs Based on Rafael's IP

We have exclusive rights to commercialize Rafael's technology in civilian markets

Rafael tech spinoffs were acquired by strategics

Design Partnership with Portfolio Companies

Helping portfolio companies develop technologies and mature products in an enterprise- and military-grade environment

Rafael often converts into their 1st enterprise customer

Gateway Into High-Entry Barrier Markets

Rafael can open up markets to portfolio companies both as a direct customer, or as a prime contractor

DEEP TECH: Reshaping industries representing exponential growth potential - expected to reach €8 trillion in 2030

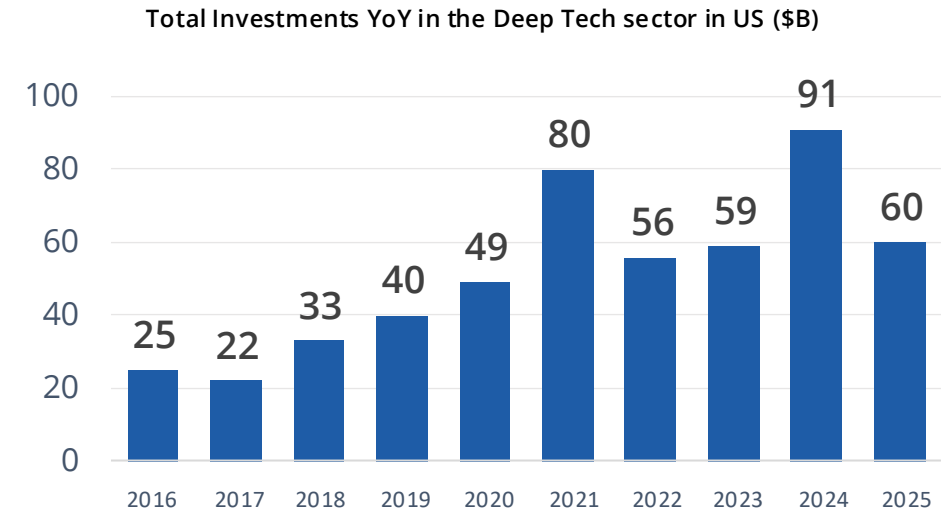

TOP 10 DEEP TECH SECTORS

Technology Cluster	Applications	Potential Global Value Pool in 2030 (€)
Artificial Intelligence	AI drug development, GenAI, enterprise workflow	1T-1.5T
Autonomous Systems	Autonomous driving, drones, robots, nanosatellites	< 0.3T
Advanced Physics and Chemistry	Batteries, energy production, rocket propulsion systems	0.5-1T
IoT and Sensors	Next-gen telco, sound/video/motion sensors, microscopes	0.5-1T
Synthetic Biology	Bioreactors, new protein/cell designs, gene sequencing	< 0.3T
Advanced Materials and Nanotechnology	Semiconductors, metal alloys, construction/bio/nano-materials	1T-1.5T
Next-Generation Interfaces	AR/VR headsets, optical waveguides, haptics, digital twins	0.3-0.5T
Blockchain	Only platforms, NFTs excluded	0.3-0.5T
Automation	Industrial robots, additive manufacturing, automation software	1T-1.5T
Quantum Technologies	Quantum computing, quantum communication, quantum sensing	< 0.3T

By **2030** the global value pool (the sum of new revenues & avoided costs) associated with the top ten deep tech sectors will be **~€8T**

Rafael has unique technological capabilities in 8 out of the top 10 deep tech clusters...

All of which have dual use potential...

Investment Opportunity

EndoZip™ - The Only Automated ESG1 Solution for Obesity

The acquisition of Standard Bariatrics, Apollo and Endogastric Solutions of the last 3 years underline strategic interest

Nitinotes made top 10 list of endoscopy topics in 2024 ([link](#))

1

Obesity epidemic

US & EU5 estimated 180M adult obese patients

2

GLP1 challenged by costs and side effects

Not durable solution, >58% discontinue in 12 weeks

3

ESG filling the gap for vast unmet clinical need

Balloons not durable / bariatric surgery mainly for class III

4

EndoZip™ democratizes ESG

Ease of procedure enables use by bariatric surgeons opening a new segment of the market

5

Boston Scientific's OverStitch™ efforts opening the market

Reimbursement largely existing, market educated on ESG

Dr. Reem Shariya

Director of Therapeutic and Advanced Endoscopy,
Hospital-Weill Cornell Medical Center

"...Easily teachable, it doesn't require much endoscopic skills ..."

Dr. Manoel Galvao Neto

Director of Bariatric Research at Orlando Health

"...Inspect, position it, apply suction, and press the button. That's it! It's that simple and straight forward..."

Dr. Ivo Boskoski

Fondazione Policlinico Universitario Agostino Gemelli IRCCS

"... With EndoZip™ you are able to easily reproduce the same reliable suture over and over with no additional effort..."

Dr. Barham Abu Dayyeh

Executive Director and Associate Dean for Innovation | Director of Interventional Gastroenterology Cedar Sinai

"...Believe me it's going to be a game changer in the field..."

GLP-1 Uptake Demonstrates Acute Need for Obesity Treatment Alternatives are needed due to non-compliance and costs

13.8 B\$

2024 revenue¹ is a significant uptake for GLP-1 since market introduction in 2021 (Wegovy & Zepbound), remaining below analyst expectations

ESG & GLP-1 combined therapy leads to improved TBWL ~25% and reduction in HbA1c ([link](#))

EndoZip™

World's First Automated Disposable Suturing System

Easy to use

Fast

Efficient

Enables automated single use suturing in a desired location inside the stomach, consisting of 3 main parts:

Bougie

Patent protected suturing head, with helical needle, clip mechanism and sensors

Insertion tube

Delivery system for navigation in the stomach

Handle and control unit

- Easy navigation, enabling scope access, and application of suction / insufflation in stomach
- Motors, sensors, electronics, software and user interface
- 1 click of a button that manages suturing, tightening and clipping in ~45 seconds

EndoZip™ is an Automated ESG Procedure Enables Reproducible Suturing

1

EndoZip™ is inserted via a minimally invasive oral approach

2

An articulating head allows easy positioning in any anatomy

3

Vacuum is applied and with the press of a button **fully automated suturing** is initiated: 1 suture line, 8 bites, incl. tightening and clipping in only 45 seconds

4

Process is repeated to complete the **pre-determined multi-suture layout**

Breaking: Bybit Exchange Hacked; \$1.5 Billion in Crypto Lost

According to major Web3 analytics firms like **Cyvers Alerts** and Arkham Intelligence, the alleged hackers exploited over 401,346 ETH tokens worth over \$1.1 Billion in value along with other assets. The security breach follows an earlier \$1.5 billion suspicious activity alert issued by blockchain security firm **Cyvers Alerts**, which had flagged unusual transactions involving Bybit's wallet.

Red Access

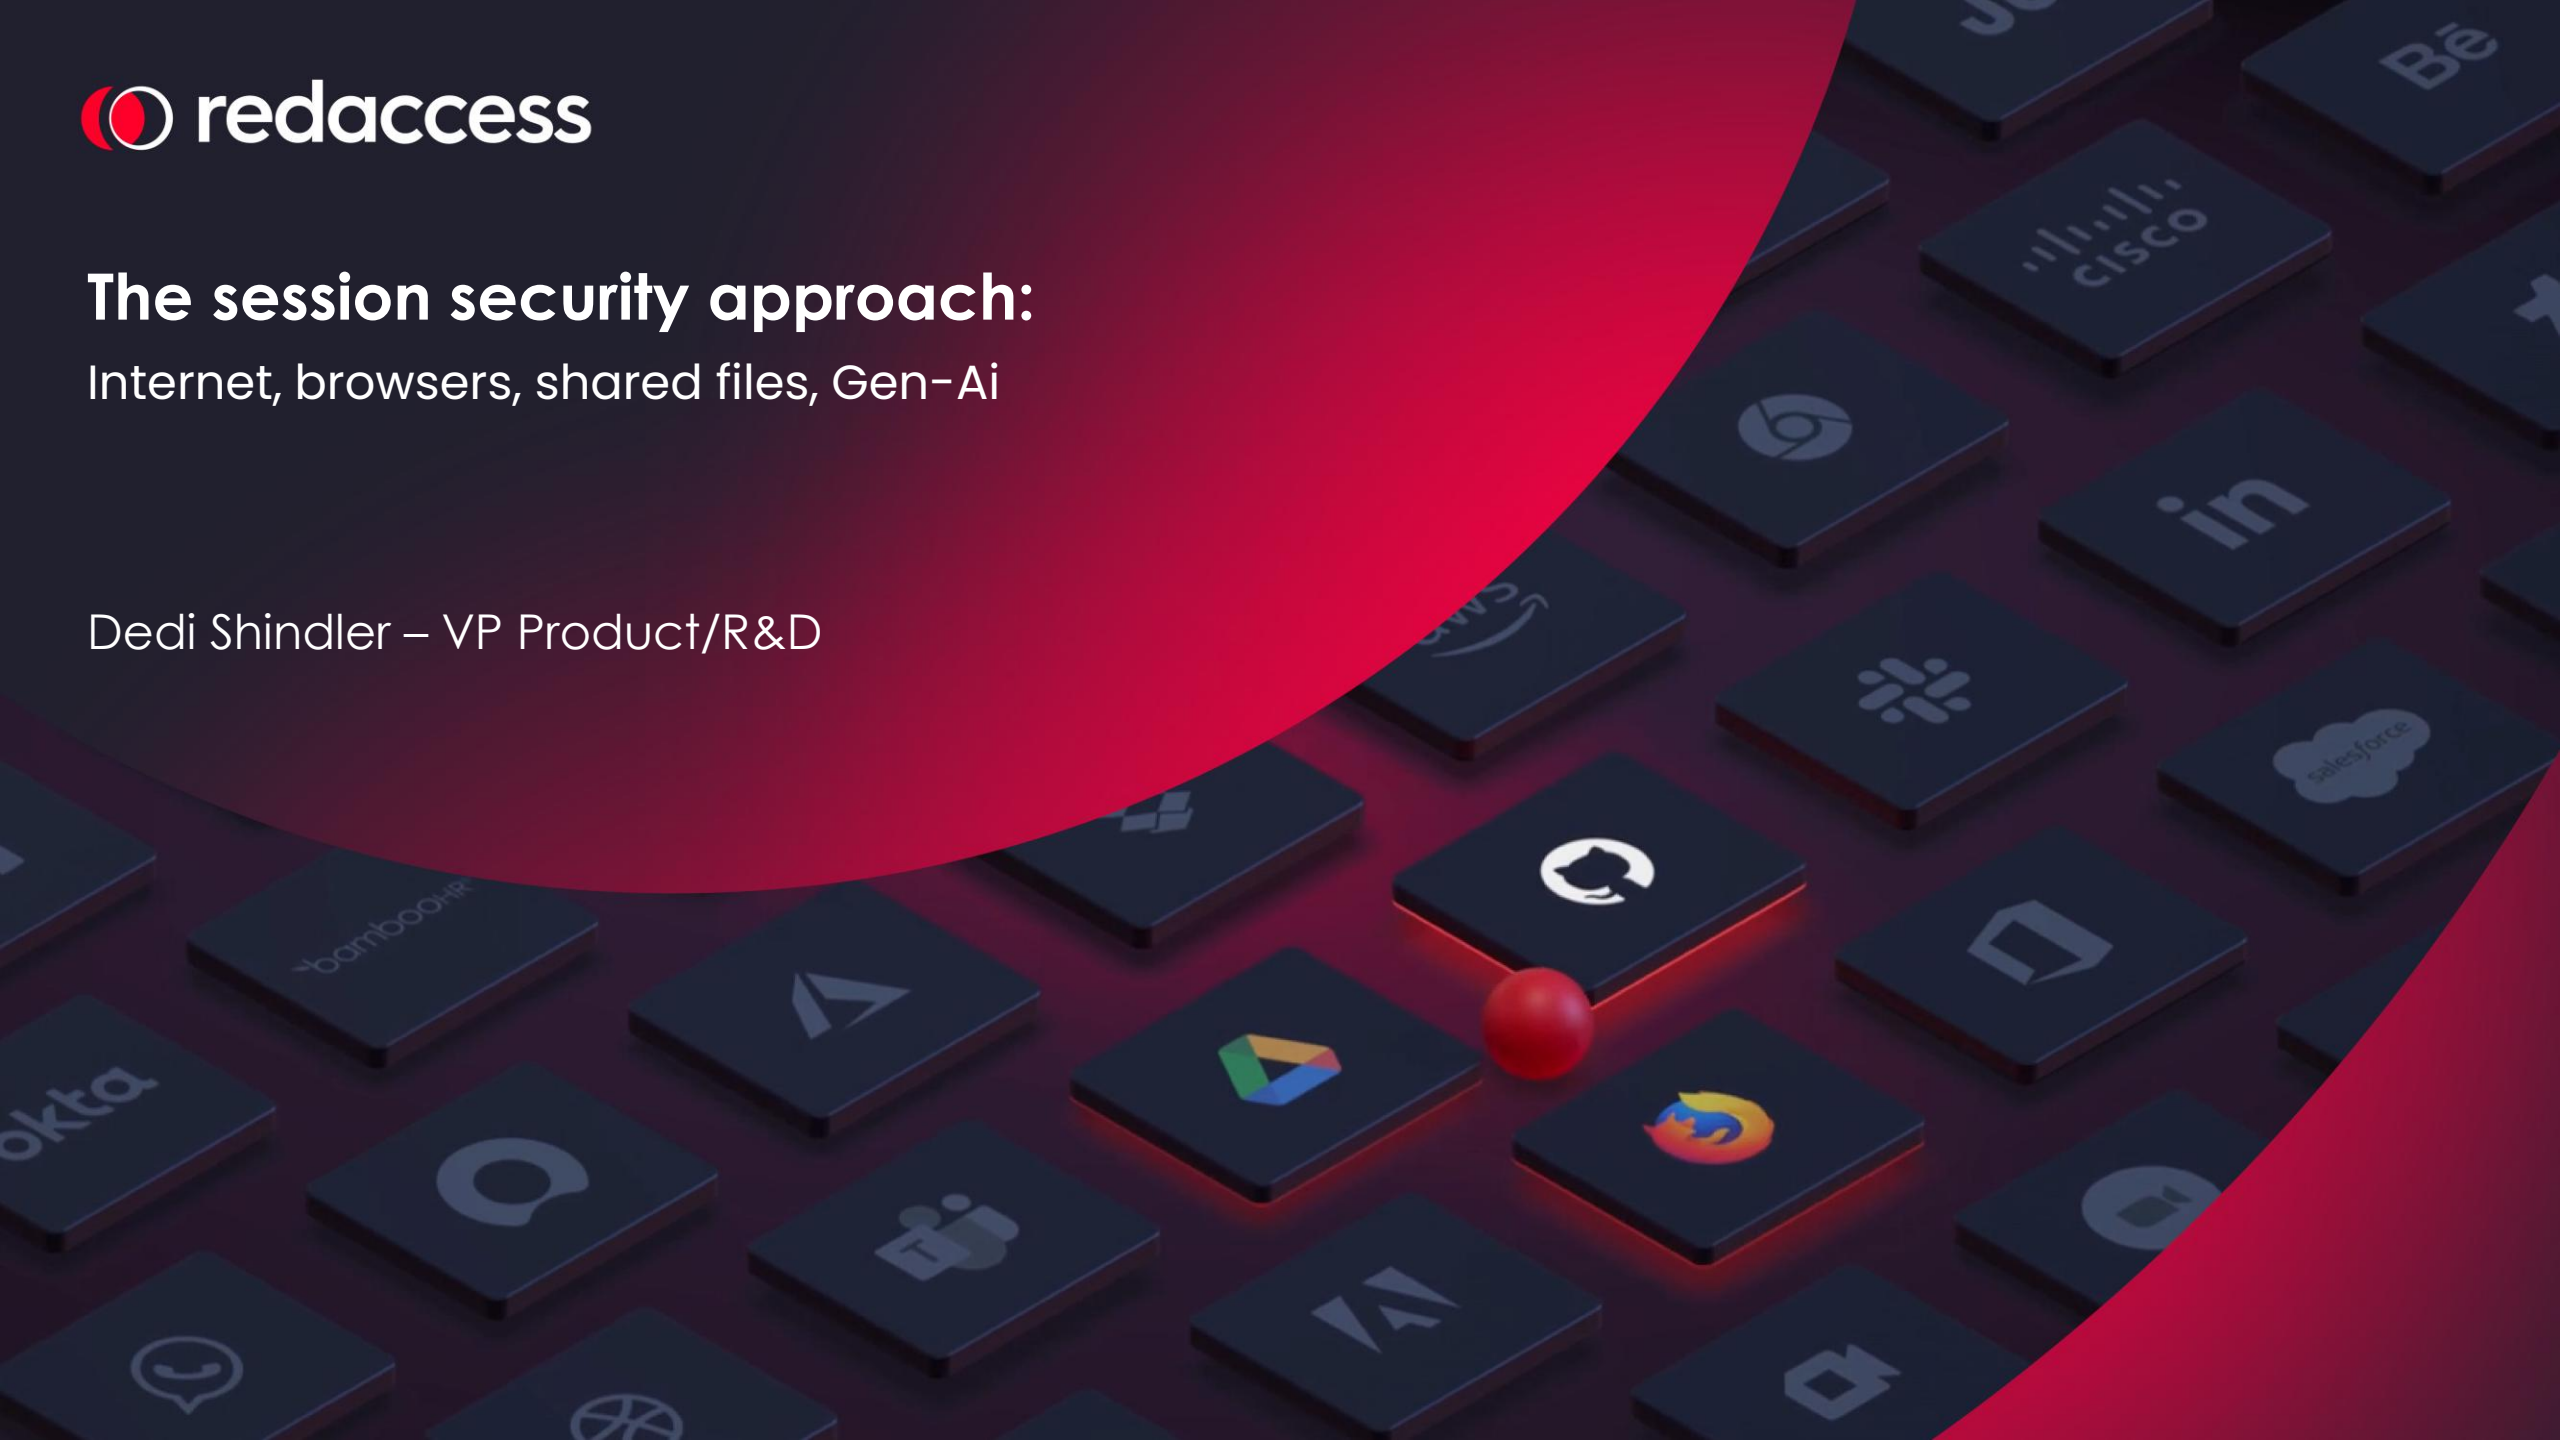

The session security approach:

Internet, browsers, shared files, Gen-Ai

Dedi Shindler – VP Product/R&D

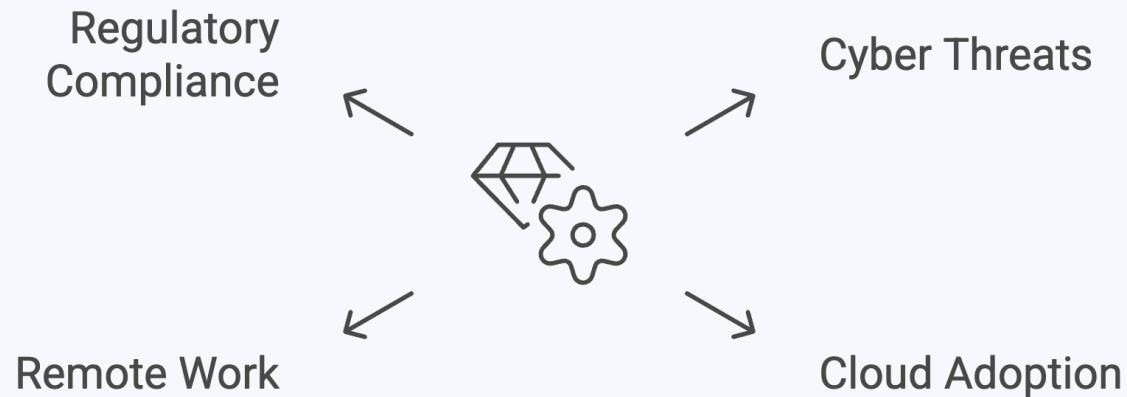

The Shift to a Modernize Security Infrastructure

79% of organizations plan to adopt SSE (Security Service Edge) within the next two years, many are **struggling to move from intent to execution**.

71% of enterprises operating in hybrid models, **most are seeking simpler ways** to secure networks without overhauling infrastructure or aligning multiple teams.

Market Key Drivers

- **Increasing Cyber Threats:** The rise of sophisticated and AI-driven cyberattacks necessitates more robust defenses.
- **Cloud Adoption:** As more businesses migrate to cloud-based operations, there is a greater need for security solutions to protect these environments.
- **Hybrid and Remote Work:** The proliferation of remote and hybrid work models creates new vulnerabilities, increasing the demand for solutions that can secure users and data outside the traditional network perimeter.
- **Regulatory Compliance:** Growing administrative guidelines and the need for regulatory compliance also drive the adoption of advanced firewalls.

Zero Trust Access

Red Access Approach & Differentiation

1. **Session-Level Security** – Protects each browsing session in real time, rather than relying on device or network-based controls.
2. **Agentless by Design** – No installations, extensions, or special browsers — simple to deploy and maintain.
3. **Browser-Agnostic** – Works seamlessly with all browsers, including Chrome, Edge, Safari, and Firefox, across any OS.
4. **Frictionless User Experience** – Operates silently in the background with no latency, no slowdowns, and no workflow disruption.
5. **Unified Protection Platform** – Consolidates SWG, CASB, DLP, and RBI capabilities into one lightweight solution.
6. **Flexible Deployment Models** – Supports native firewall integration, PAC file setup, and secure BYOD access.
7. **Security That Empowers Productivity** – Delivers strong protection without limiting user freedom or performance.

Market Recognition

Industry Recognition -
GigaOm Radar for Secure
Enterprise Browsing
(August 2025)

"Red Access had received the highest possible score in the following categories: Network Security Functions, Visibility & Monitoring, Ease of Use."

"It is worth noting that customers do not need to make any changes to their existing browsing solutions to deploy the Red Access solution."

Momentum & Scale

- Key management hirings
- Our agentless platform is **helping customers around the globe** simplify security across all browsers, SaaS and corporate apps, without the network overhaul of SSE or the isolation of browser security.
- Designed for the way people work today, **Red Access secures SaaS, GenAI and hybrid environments**, without the heavy infrastructure, agents or rollout delays of traditional solutions.
- Our new funding will allow us to **enhance our global presence** and continue to drive innovation for our customers.

Thank You
